WORLD CLASS IN NATURAL STONE

ECCELLENZA NELLA PIETRA NATURALE

Brachot is a leading specialist in natural stone and blended materials, offering landscape and surface materials. Brachot developed from a wholesaler in natural stone slabs to an international player with quarries, production sites and distribution centres in various countries. Brachot's own range is complemented by products from renowned international quarries and suppliers.

Specialista in pietre naturali e materiali composti, Brachot è un'azienda leader del settore, che offre materiali per aree e superfici. Dagli esordi come grossista di lastre di pietra naturale, Brachot si è poi sviluppata diventando un operatore internazionale di cave, siti di produzione e centri di distribuzione in vari Paesi. La gamma di prodotti Brachot è affiancata da prodotti di cave e fornitori rinomati a livello internazionale.

Brachot Italy - Stone Gallery

Cameleon (SA) - Nari Black

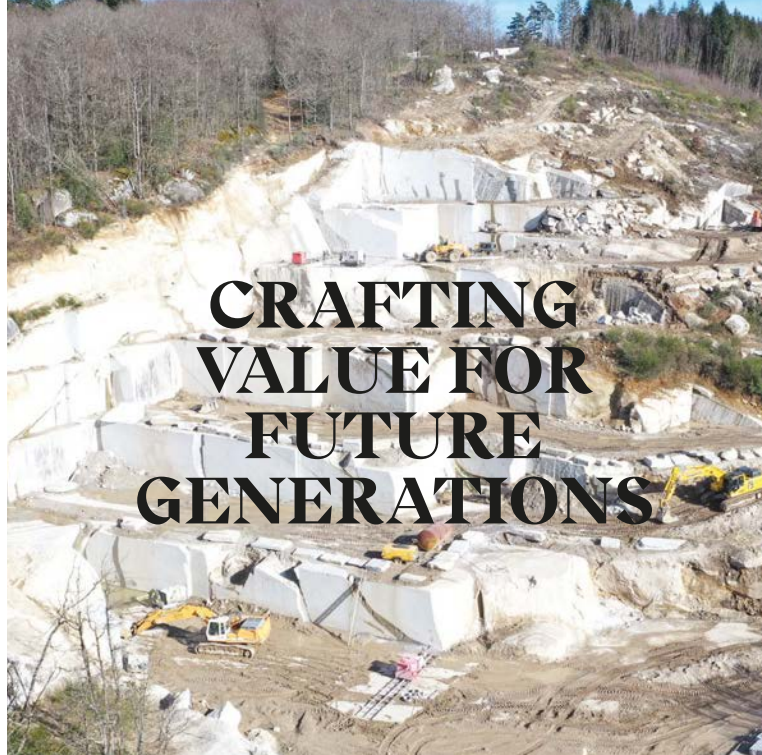

Follow us

www.brachot.com

With over 20 quarries, Brachot controls the entire production chain, from quarrying to manufacturing to distribution. Discover our exclusive materials from our own quarries: granite from Cameleon, Larvik Granite and the French Tarn from Granitarn. Irish blue stone from Kilkenny Limestone not to be forgotten.

Con oltre 20 cave, Brachot controlla l'intera catena di produzione, dall'estrazione, alla produzione, alla distribuzione. Scoprite i nostri materiali esclusivi provenienti dalle nostre cave: il granito di Cameleon, il granito di Larvik Granite e il Tarn francese di Granitarn. Da non dimenticare la pietra blu irlandese di Kilkenny Limestone.

CRAFTING VALUE FOR FUTURE GENERATIONS

Granitarn: Les Vergnes (FR)

Larvik Granite (NO) - Silver Pearl #5

Wish to know more?

Don't hesitate to visit our Stone Gallery in Verona! You will be able to discover a wide selection of natural stones and blended materials.

Volete saperne di più?

Non esitate a visitare la nostra Stone Gallery di Verona! Potrete scoprire un'ampia selezione di pietre naturali e materiali misti.

In more than 50 years of activity, Marmo Meccanica have specialized in the production of linear edge polishers and bridge saws for marble, granite, quartz and ceramic materials.

Marmo Meccanica's goal is to provide the customer with tools that create value for their business: profitable, reliable, durable, low-maintenance and easy to use. Since we believe that simplicity is the key to efficiency, our designs always put in place smart and anti-complication technological solutions.

"To complicate is easy. To simplify is difficult."
– Bruno Munari

PROMETEC is a global player in the design and construction of highly technological machinery for stone processing: polishing lines and handling for stone, quartz, and ceramics; it excels in innovative treatment plants.

With over 500 installations for resin, stone pigmentation, anti-oxidation, anti-stain and anti-acid processes, for the leading companies in the industry.

PROMETEC

Leading Innovation in Stone

Technology to be ahead

Eccellenza nella Tecnologia per la Lavorazione della Pietra

Progettare macchine competitive nelle prestazioni, non perdendo mai di vista l'affidabilità di ogni singolo dettaglio, è la filosofia industriale che applichiamo nella realizzazione di tutti i nostri prodotti, dai grandi impianti alle macchine più piccole, ottenendo una Qualità che è ormai diventata un vero e proprio punto di riferimento per il mercato. Per questo se devi acquistare una piccola fresa o un grande impianto automatico puoi affidarti a SIMEC con tranquillità, sicuro che stai facendo la cosa migliore. Certo che ogni scelta progettuale sia stata compiuta nel tuo interesse, che ogni materiale e componente sia stato selezionato ed assemblato con cura per garantirti un prodotto pronto a lavorare instancabilmente. È grazie alla Qualità dei dettagli che SIMEC cresce senza soste da oltre quarant'anni. È grazie alla Qualità dell'insieme che migliaia di clienti di impianti SIMEC, per marmo o per granito, ogni giorno crescono con noi.

Creating competitive machines with high performance, never losing sight of the reliability of every single detail, is the industrial philosophy we apply in the development of all our products, from the largest installations to the smallest machines, ensuring a Quality that has by now become a regular reference for the market. For this reason, whether you have to purchase a small milling machine or an enormous automatic plant, you can rely on SIMEC every time, with the certainty that you are making the best possible choice. You know that every design decision was made in your interest, that all the materials and every part were selected and assembled with care to guarantee a product ready to work tirelessly for you. It is thanks to the Quality of the details that SIMEC has kept growing without pause for over thirty-five years. It is thanks to the Quality of the whole that thousands of clients of SIMEC plants, for marble or granite, grow every day with us.
